FREERIDE TOURS

Cable cars and chairlifts give you ideal access to our network of single trails, designed to get every freerider's pulse racing.

Even when the weather chooses not to cooperate, we still always have lots of fun...

The **Silvretta Card** provides unlimited use of numerous leisure facilities in the Montafon and Paznaun Valley. For more information, go to www.ischgl.com.

Our freeride tours are incredibly diverse and range from flowing trails to blocked downhill runs with step-downs. Freaks manage to do up to 5000 downhill meters a day.

RIDING TECHNIQUE FOLLOWED BY A TOUR

Training in the proper riding technique is essential, especially for beginners. After all, once you've got the basics under your belt, you can be sure of a great time on our flowing single trails.

On a tough obstacle course in level terrain...

... we teach you the technique required for the demanding single trails. The right technique ensures even more fun on the tour afterwards.

Naturally, we also offer technique training for more advanced riders.

MULTIDAY CABIN TOURS

Our cabin tour is especially popular and its highlight the Fimber Pass is considered by bikers to be one of the best passes in the Alps.

About 180 km in length and with about 6000 vertical meters, the tour is divided into 4 challenging day stages with technically demanding passages and snappy gradients to eke every ounce of skill out of us.

Our offer

- 3 nights with half-board in the cabins
- 4 guided tours to the cabins
- Parking places for cars during the tour
- Lift ticket from Samnaun to the Flimjoch
- 2 nights with breakfast in Ischgl
